SUBJECT INDEX—VOLUME 74 January–June 1983

E = Editorial; CPC = Clinicopathologic Conference; MSS = Medicine, Science and Society; CCBSS = Combined Clinical and Basic Science Seminars

Acetaminophen
Severe hepatic damage after acetaminophen use in psittacosis, 349
Acid-base disorders
Extreme central acidosis from Abbott epinephrine, 30
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Acidosis
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Extreme central acidosis from Abbott epinephrine, 30
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Acinetobacter calcoaceticus
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Acromegaly
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Size and erosive features of the sella turcica in acromegaly as predictors of therapeutic response to supervoltage irradiation, 69
ACTH deficiency
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Acupuncture
Acupuncture treatment of chronic back pain. A double-blind placebo-controlled trial, 49
Acute asthma
Glucocorticoids in acute asthma. A critical controlled trial, 845
Position and diaphoresis in acute asthma, 1005
Acute myocardial infarction
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Addison's disease
Cardiac failure in Addison's disease, 829
Adenocarcinoma
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Barrett's esophagus: a review, 313
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Adenoma
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
The changing clinical spectrum of primary aldosteronism, 641
Adenopathy
Eosinophilia, heart failure, and adenopathy in a black man (CPC), 887
Adenylate cyclase
Resistance to multiple hormones in pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
Adrenal disease
Cardiac failure in Addison's disease, 829
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
The changing clinical spectrum of primary aldosteronism, 641
The superiority of the metyrapone test versus the high-dose dexamethasone test in the differential diagnosis of Cushing's syndrome, 657
Adrenoreceptors
Beta-adrenergic blockade and the gastrointestinal system, 1042
Adriamycin
Sequential chemotherapy and late intensification for malignant lymphomas of aggressive histologic type, 382
Adult-onset diabetes
Baroreflex dysfunction in patients with adult-onset diabetes and hypertension, 233
Aging
Aging and aldosterone, 442
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Alcoholism
Failure of mean red cell volume to serve as a biologic marker for alcoholism in narcotic dependence. A randomized control trial, 369
Regulation of alcohol consumption. Individual appetite and social policy (CCBSS), 322
Aldosterone
Aging and aldosterone, 442
The changing clinical spectrum of primary aldosteronism, 641
Alkalosis
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Allbutt, Sir Thomas Clifford
On first looking into Allbutt's System of Medicine (MSS), 172
Allergy
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Alpha$_1$-antitrypsin
Predictors of survival in subjects with chronic airflow limitation, 249
Risk for liver disease in adults with alpha$_1$-antitrypsin deficiency, 221
Aluminum hydroxide
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Amenorrhea
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Aminoglycosides
Hospital-acquired renal insufficiency: a prospective study, 243
Amyloid
Characterization of amyloid deposits and P component from a patient with factor X deficiency reveals proteins derived from a lambda VI light chain, 513
Analgesic therapy
Acupuncture treatment of chronic back pain. A double-blind placebo-controlled trial, 49
Effect of intra-articular orgotein versus a corticosteroid on rheumatoid arthritis of the knees, 124
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Severe hepatic damage after acetaminophen use in psittacosis, 349
Anemia
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
Angiitis
Isolated angiitis of the central nervous system. Prospective diagnostic and therapeutic experience, 97
Angiography
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Angiosarcoma
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Angiotensin
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029

Angiotensin-converting enzyme
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Animal models
Nonhuman primates with spontaneous diseases as animal models (E), 169
Antacids
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Anti-aurothiomalate antibodies
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Antibiotic therapy
Changing spectrum of pneumonia—news media creation or clinical reality? (E), 1
Enterococcal pneumonia. Occurrence in patients receiving broad-spectrum antibiotic regimens and enteral feeding, 153
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Osteomyelitis caused by Veillonella, 902
Prospective randomized double-blind comparison of moxalactam and tobramycin in treatment of urinary tract infections, 694
Septic shock in a young splenectomized man (CPC), 129
Severe hepatic damage after acetaminophen use in psittacosis, 349
Treatment of serious infections with moxalactam, 396
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Antibodies
Antibodies to native DNA and serum complement (C3) levels. Application to diagnosis and classification of systemic lupus erythematosus, 206
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Cell lineage in lymphoproliferative disease, 679
Clinical significance of anti-Sm antibodies in systemic lupus erythematosus, 201
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Importance of anti-lung antibody in farmer's lung disease, 535
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Anti-brain antibodies
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Anticoagulation therapy
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
Anti-DNA antibodies
Antibodies to native DNA and serum complement (C3) levels. Application to diagnosis and classification of systemic lupus erythematosus, 206
Clinical significance of anti-Sm antibodies in systemic lupus erythematosus, 201
Antigens
Candidal antigen detection in pulmonary candidiasis, 630
Anti-inflammatory agents
Effect of intra-articular orgotein versus a corticosteroid on rheumatoid arthritis of the knees, 124
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Anti-lung antibody
Importance of anti-lung antibody in farmer's lung disease, 535
Antimicrosomal antibodies
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Antinuclear antibodies
Clinical significance of anti-Sm antibodies in systemic lupus erythematosus, 201
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Antiplatelet drugs
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Anti-Sm antibodies
Clinical significance of anti-Sm antibodies in systemic lupus erythematosus, 201
Anti-T cell antibodies
Tissue distribution of lymphocutes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Antithrombin III
The role of antithrombin III in clinical management of pulmonary embolization (E), 529
Antithyroglobulin antibodies
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Antithyroid antibodies
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Aortic root
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Apheresis
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Aplastic anemia
Aplastic anemia and non-A, non-B hepatitis, 64
Arrhythmia
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Arterial hypertension
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Arthritis
Acute monoarticular arthritis due to Phialophora parasitica, 519
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Effect of pregnancy on immune complexes and rheumatoid factors in patients with rheumatoid arthritis, 973
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Aseptic necrosis
Bone involvement in hairy cell leukemia, 228
Aspiration
Mechanism of relief of dyspnea after thoracocentesis in patients with large pleural effusions, 813
Aspiration biopsy
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Asthma
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Glucocorticoids in acute asthma. A critical controlled trial, 845
Position and diaphoresis in acute asthma, 1005
Astrocytoma
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343

Autoimmune disease
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Autoimmune hemolytic anemia
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Autoimmune thyroid disease
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Autonomic dysfunction
Baroreflex dysfunction in patients with adult-onset diabetes and hypertension, 233
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Back pain
Acupuncture treatment of chronic back pain. A double-blind placebo-controlled trial, 49
Bacterial infection
Changing spectrum of pneumonia—news media creation or clinical reality? (E), 1
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Enterococcal pneumonia. Occurrence in patients receiving broad-spectrum antibiotic regimens and enteral feeding, 153
Intracranial tuberculoma: conservative management, 570
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Osteomyelitis caused by Veillonella, 902
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Prospective randomized double-blind comparison of moxalactam and tobramycin in treatment of urinary tract infections, 694
Septic shock in a young splenectomized man (CPC), 129
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Treatment of serious infections with moxalactam, 396
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Baroreceptor dysfunction
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Vasopressin response to orthostatic hypotension. Etiologic and clinical implications, 265
Barrett's esophagus
Barrett's esophagus: a review, 313
B cells
Cell lineage in lymphoproliferative disease, 679
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Berger's disease
IgA-containing circulating immune complexes in patients with IgA nephropathy, 56
Beta-adrenergic blockade
Beta-adrenergic blockade and the gastrointestinal system, 1042
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Intrinsic sympathomimetic activity of pindolol. Evidence for interaction with pretreatment sympathetic tone, 625
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Bicarbonate therapy
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Bleeding
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Barrett's esophagus: a review, 313
Bleomycin
Bleomycin-induced fatal hyperpyrexia, 523
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Blood-brain barrier
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Blood cells
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Hematuria and red cell casts in typical diabetic nephropathy, 389
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Blood pressure
Aging and aldosterone, 442
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Intrinsic sympathomimetic activity of pindolol. Evidence for interaction with pretreatment sympathetic tone, 625
Membranous glomerulopathy associated with captopril therapy, 705
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
The changing clinical spectrum of primary aldosteronism, 641
Vasopressin response to orthostatic hypotension. Etiologic and clinical implications, 265
Bone
Bone involvement in hairy cell leukemia, 228
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Osteomyelitis caused by Veillonella, 902
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Therapy of malignancy-associated hypercalcemia: 1983, 475
Bone marrow
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Breast carcinoma
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Bromocriptine
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Prolactinomas as part of the multiple endocrine neoplastic syndrome type 1, 713
Bronchitis
Predictors of survival in subjects with chronic airflow limitation, 249
Bronchoalveolar lavage
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Bronchodilator therapy
Predictors of survival in subjects with chronic airflow limitation, 249
Burkitt's lymphoma
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
C3
Antibodies to native DNA and serum complement (C3) levels. Application to diagnosis and classification of systemic lupus erythematosus, 206
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175

Calcitonin
Therapy of malignancy-associated hypercalcemia: 1983, 475
Calcitriol
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Calcium
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Hypercalcemia in disseminated candidiasis, 721
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Primary hyperparathyroidism masked by hypothyroidism, 144
Therapy of malignancy-associated hypercalcemia: 1983, 475
Cancer
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Candidiasis
Candidal antigen detection in pulmonary candidiasis, 630
Hypercalcemia in disseminated candidiasis, 721
Captopril
Membranous glomerulopathy associated with captopril therapy, 705
Carbon monoxide
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Carboxyhemoglobin
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Carcinoembryonic antigen
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Carcinoma
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Compliance with cancer therapy by patients and physicians, 673
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Neurologic deterioration and death in a 27-year-old man with chondrosarcoma (CPC), 663
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Retrospective and prospective study of radiation-induced thyroid disease, 852
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Therapy of malignancy-associated hypercalcemia: 1983, 475
Cardiac arrest
Extreme central acidosis from Abbott epinephrine, 30
Sudden unexpected death during ambulatory electrocardiographic monitoring. The Framingham study, 148
Cardiac disease
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Cardiac failure in Addison's disease, 829
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Eosinophilia, heart failure, and adenopathy in a black man (CPC), 887
Inheritance of the mitral valve prolapse syndrome. Discussion of a three-dimensional penetrance model, 967
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Sudden unexpected death during ambulatory electrocardiographic monitoring. The Framingham study, 148
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Cardiac failure
Cardiac failure in Addison's disease, 829
Cardiopulmonary resuscitation
Sudden unexpected death during ambulatory electrocardiographic monitoring. The Framingham study, 148
Catheters
Peritoneal access and related complications in continuous ambulatory peritoneal dialysis, 593
Central nervous system
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Isolated angiitis of the central nervous system. Prospective diagnostic and therapeutic experience, 97
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Cerebral hemorrhage
Stiff-man syndrome and dementia, 1085
Cerebrospinal fluid
Cerebrospinal fluid rhinorrhea as a complication of malignant lymphoma, 1077
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Charcoal hemoperfusion
Use of hemoperfusion for treatment of theophylline intoxication, 961
Chemotaxis
Polymorphonuclear leukocytes: dedicated professional phagocytes, 686
Chemotherapy
Bleomycin-induced fatal hyperpyrexia, 523
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
Chemotherapy in advanced Kaposi's sarcoma. Implications for current cases in homosexual men, 652
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615

(*Continued on next page*)

Chemotherapy (cont'd.)
Sequential chemotherapy and late intensification for malignant lymphomas of aggressive histologic type, 382
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Chlamydia psittaci
Severe hepatic damage after acetaminophen use in psittacosis, 349
Chlorination
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Chlorpropamide
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Chondrosarcoma
Neurologic deterioration and death in a 27-year-old man with chondrosarcoma (CPC), 663
Chronic airflow limitation
Predictors of survival in subjects with chronic airflow limitation, 249
Chronic back pain
Acupuncture treatment of chronic back pain. A double-blind placebo-controlled trial, 49
Chrysotherapy
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Cirrhosis
Regulation of alcohol consumption. Individual appetite and social policy (CCBSS), 322
Clinicopathologic Conferences
Anemia and thrombocytopenia in a 63-year-old man, 502
Eosinophilia, heart failure, and adenopathy in a black man, 887
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman, 1052
Neurologic deterioration and death in a 27-year-old man with chondrosarcoma, 663
Persistent fever and confusion in a healthy 70-year-old man, 303
Septic shock in a young splenectomized man, 129
Clonidine
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Coagulation
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
The role of antithrombin III in clinical management of pulmonary embolization (E), 529
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Cobalamin
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
Collaborative practice
Some considerations for implementing collaborative practice (MSS), 9
Colorectal carcinoma
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Combination chemotherapy
Chemotherapy in advanced Kaposi's sarcoma. Implications for current cases in homosexual men, 652
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Sequential chemotherapy and late intensification for malignant lymphomas of aggressive histologic type, 382
Combined Clinical and Basic Science Seminars
Endocytosis by the mononuclear phagocyte system and autoimmune disease, 481
Regulation of alcohol consumption. Individual appetite and social policy, 322
Communication
Compliance with cancer therapy by patients and physicians, 673
Impact of inter-physician communication on the effectiveness of medical consultations, 106
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
On first looking into Allbutt's System of Medicine (MSS), 172
The chief medical residency in the 1980s (MSS), 737
The diagnostic consultant, 929
The effectiveness of a consultation. Compliance with initial recommendations, 870
The peer review and editorial process: a limited evaluation, 494
Uninformed consent and terms without definitions, 932
Complement
Antibodies to native DNA and serum complement (C3) levels. Application to diagnosis and classification of systemic lupus erythematosus, 206
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Compliance
Compliance with cancer therapy by patients and physicians, 673
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
The effectiveness of a consultation. Compliance with initial recommendations, 870
Complications
Patients surviving 10 years of hemodialysis, 996
Confusion
Persistent fever and confusion in a healthy 70-year-old man (CPC), 303
Congestive cardiomyopathy
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Congestive heart failure
Cardiac failure in Addison's disease, 829
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Eosinophilia, heart failure, and adenopathy in a black man (CPC), 887
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457
Consent
Uninformed consent and terms without definitions, 932
Consultation
Impact of inter-physician communication on the effectiveness of medical consultations, 106
The diagnostic consultant, 929
The effectiveness of a consultation. Compliance with initial recommendations, 870
Contamination
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Contrast media
Hospital-acquired renal insufficiency: a prospective study, 243
Corticosteroids
Effect of intra-articular orgotein versus a corticosteroid on rheumatoid arthritis of the knees, 124
Glucocorticoids in acute asthma. A critical controlled trial, 845
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Cortisol
The superiority of the metyrapone test versus the high-dose dexamethasone test in the differential diagnosis of Cushing's syndrome, 657

Creatinine
Hospital-acquired renal insufficiency: a prospective study, 243
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Reversible "end-stage" lupus nephritis. Analysis of patients able to discontinue dialysis, 361
Cryofiltration
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Crytococcus neoformans
Persistent fever and confusion in a healthy 70-year-old man (CPC), 303
Cushing's syndrome
The superiority of the metyrapone test versus the high-dose dexamethasone test in the differential diagnosis of Cushing's syndrome, 657
Cutaneous reactions
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Cyanocobalamin
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
Cyclophosphamide
Isolated angiitis of the central nervous system. Prospective diagnostic and therapeutic experience, 97
Cystosarcoma phyllodes
Surgical cure of hypoglycemia associated with cystosarcoma phyllodes and elevated nonsuppressible insulin-like protein, 1080
Cytomegalovirus
Urinary retention as the presenting symptom of acquired cytomegalovirus infection, 526
Delayed hypersensitivity
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Dementia
Stiff-man syndrome and dementia, 1085
Dermatitis
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Dexamethasone
The superiority of the metyrapone test versus the high-dose dexamethasone test in the differential diagnosis of Cushing's syndrome, 657
Diabetes mellitus
Baroreflex dysfunction in patients with adult-onset diabetes and hypertension, 233
Hematuria and red cell casts in typical diabetic nephropathy, 389
Increased damage after ischemic stroke in patients with hyperglycemia with or without established diabetes mellitus, 540
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Diabetic nephropathy
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256
Diagnosis
Antibodies to native DNA and serum complement (C3) levels. Application to diagnosis and classification of systemic lupus erythematosus, 206
Candidal antigen detection in pulmonary candidiasis, 630
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
The superiority of the metyrapone test versus the high-dose dexamethasone test in the differential diagnosis of Cushing's syndrome, 657
Diaphoresis
Position and diaphoresis in acute asthma, 1005
Dichloromethylene diphosphonate
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Diet
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
24,25-Dihydroxyvitamin D_3
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Diphosphonates
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Therapy of malignancy-associated hypercalcemia: 1983, 475
Disseminated candidiasis
Hypercalcemia in disseminated candidiasis, 721
Disseminated intravascular coagulation
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Drug abuse
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Failure of mean red cell volume to serve as a biologic marker for alcoholism in narcotic dependence. A randomized control trial, 369
Regulation of alcohol consumption. Individual appetite and social policy (CCBSS), 322
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Use of hemoperfusion for treatment of theophylline intoxication, 961
Dyspnea
Mechanism of relief of dyspnea after thoracocentesis in patients with large pleural effusions, 813
Echocardiography
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 969
Edema
Cardiac failure in Addison's disease, 829
Editorial process
The peer review and editorial process: a limited evaluation, 494
Editorials

Exercise
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Exotoxin A
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980
Experimental medicine
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Nonhuman primates with spontaneous diseases as animal models (E), 169
Factor VIII/von Willebrand's factor
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Factor X
Characterization of amyloid deposits and P component from a patient with factor X deficiency reveals proteins derived from a lambda VI light chain, 513
Farmer's lung disease
Importance of anti-lung antibody in farmer's lung disease, 535
Fc receptors
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Fever
Bleomycin-induced fatal hyperpyrexia, 523
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Persistent fever and confusion in a healthy 70-year-old man (CPC), 303
Fibrinolysis
The role of antithrombin III in clinical management of pulmonary embolization (E), 529
Fischi index
Position and diaphoresis in acute asthma, 1005
Frequency
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
Fungal infection
Acute monoarticular arthritis due to Phialophora parasitica, 519
Candidal antigen detection in pulmonary candidiasis, 630
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Hypercalcemia in disseminated candidiasis, 721
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Furosemide
Therapy of malignancy-associated hypercalcemia: 1983, 475
Galactorrhea
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Gallium scanning
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Gastroesophageal reflux
Barrett's esophagus: a review, 313
Gastrointestinal disease
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Barrett's esophagus: a review, 313
Beta-adrenergic blockade and the gastrointestinal system, 1042
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Gated radionuclide angiography
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Genetics
Inheritance of the mitral valve prolapse syndrome. Discussion of a three-dimensional penetrance model, 967
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Genital disease
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Germ cell neoplasms
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Glomerular function
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256

Glomerulonephritis
Hematuria and red cell casts in typical diabetic nephropathy, 389
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175
IgA-containing circulating immune complexes in patients with IgA nephropathy, 56
Membranous glomerulopathy associated with captopril therapy, 705
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Glucocorticoids
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Glucocorticoids in acute asthma. A critical controlled trial, 845
Therapy of malignancy-associated hypercalcemia: 1983, 475
Glucose
Increased damage after ischemic stroke in patients with hyperglycemia with or without established diabetes mellitus, 540
Surgical cure of hypoglycemia associated with cystosarcoma phyllodes and elevated nonsuppressible insulin-like protein, 1080
Gold salts
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Gonococcal infection
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Granulocytes
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Granulocytopenia
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Growth hormone
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Size and erosive features of the sella turcica in acromegaly as predictors of therapeutic response to supervoltage irradiation, 69
Guanine nucleotide regulatory protein
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
G unit
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
Gynecology
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Some considerations for implementing collaborative practice (MSS), 9
Hairy cell leukemia
Bone involvement in hairy cell leukemia, 228
Hashimoto's thyroiditis
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Heart disease
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Cardiac failure in Addison's disease, 829
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Eosinophilia, heart failure, and adenopathy in a black man (CPC), 887
Inheritance of the mitral valve prolapse syndrome. Discussion of a three-dimensional penetrance model, 967
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Sudden unexpected death during ambulatory electrocardiographic monitoring. The Framingham study, 148
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Heart valves
Tissue distribution of lymphocutes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Hematocrit
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Hematologic disease
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Aplastic anemia and non-A, non-B hepatitis, 64
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Hematuria
Hematuria and red cell casts in typical diabetic nephropathy, 389
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
Hemodialysis
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Patients surviving 10 years of hemodialysis, 996

(*Continued on next page*)

Hemodialysis (cont'd.)
Peritoneal access and related complications in continuous ambulatory peritoneal dialysis, 593
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Reversible "end-stage" lupus nephritis. Analysis of patients able to discontinue dialysis, 361
Hemodynamics
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Intrinsic sympathomimetic activity of pindolol. Evidence for interaction with pretreatment sympathetic tone, 625
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457
Hemoglobin
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Failure of mean red cell volume to serve as a biologic marker for alcoholism in narcotic dependence. A randomized control trial, 369
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Hemolytic anemia
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Hemoperfusion
Use of hemoperfusion for treatment of theophylline intoxication, 961
Hemorrhage
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Stiff-man syndrome and dementia, 1085
Heparin
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Hepatic disease
Aplastic anemia and non-A, non-B hepatitis, 64
Regulation of alcohol consumption. Individual appetite and social policy (CCBSS), 322
Risk for liver disease in adults with alpha$_1$-antitrypsin deficiency, 221
Severe hepatic damage after acetaminophen use in psittacosis, 349
Hepatitis
Aplastic anemia and non-A, non-B hepatitis, 64
Elevated thyroxine levels due to increased thyroxine-binding globulin in acute hepatitis, 564
HLA typing
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Hodgkin's disease
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Homosexual men
Chemotherapy in advanced Kaposi's sarcoma. Implications for current cases in homosexual men, 652
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Hormones
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Hydrochlorothiazide
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029
Hydrocortisone
Glucocorticoids in acute asthma. A critical controlled trial, 845
Hypercalcemia
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Hypercalcemia in disseminated candidiasis, 721
Primary hyperparathyroidism masked by hypothyroidism, 144
Therapy of malignancy-associated hypercalcemia: 1983, 475
Hypercalciuria
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Hypercapnia
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Hypereosinophilic syndrome
Eosinophilia, heart failure, and adenopathy in a black man (CPC), 887
Hyperestrogenemia
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Hyperglycemia
Increased damage after ischemic stroke in patients with hyperglycemia with or without established diabetes mellitus, 540
Hyperparathyroidism
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Primary hyperparathyroidism masked by hypothyroidism, 144
Retrospective and prospective study of radiation-induced thyroid disease, 852
Hyperphosphatemia
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
Hyperplasia
Recurrence of thymic hyperplasia after thymectomy in myasthenia gravis. Its importance as a cause of failure of surgical treatment, 78
Hyperprolactinemia
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Prolactinomas as part of the multiple endocrine neoplastic syndrome type 1, 713
Hyperpyrexia
Bleomycin-induced fatal hyperpyrexia, 523
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Persistent fever and confusion in a healthy 70-year-old man (CPC), 303
Hypersensitivity
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Hypertension
Aging and aldosterone, 442
Baroreflex dysfunction in patients with adult-onset diabetes and hypertension, 233
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Intrinsic sympathomimetic activity of pindolol. Evidence for interaction with pretreatment sympathetic tone, 625
Membranous glomerulopathy associated with captopril therapy, 705
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093

The changing clinical spectrum of primary aldosteronism, 641
Hyperthermia
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Hyperthyroidism
Elevated thyroxine levels due to increased thyroxine-binding globulin in acute hepatitis, 564
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Hypocalcemia
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
Hypocaloric diet
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Hypocomplementemia
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175
Hypoglycemia
Surgical cure of hypoglycemia associated with cystosarcoma phyllodes and elevated nonsuppressible insulin-like protein, 1080
Hypopituitarism
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Hypotension
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Vasopressin response to orthostatic hypotension. Etiologic and clinical implications, 265
Hypothyroidism
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Primary hyperparathyroidism masked by hypothyroidism, 144
Iatrogenic injury
Hospital-acquired renal insufficiency: a prospective study, 243
Use of hemoperfusion for treatment of theophylline intoxication, 961
IgA
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
IgA-containing circulating immune complexes in patients with IgA nephropathy, 56
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
IgE
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
IgG
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Immune complexes
Effect of pregnancy on immune complexes and rheumatoid factors in patients with rheumatoid arthritis, 973
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
IgA-containing circulating immune complexes in patients with IgA nephropathy, 56
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Immunity
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Cell lineage in lymphoproliferative disease, 679
Chemotherapy in advanced Kaposi's sarcoma. Implications for current cases in homosexual men, 652
Clinical and immunologic response to antigen-specific transfer factor in drug-resistant infection with Mycobacterium xenopi, 161
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters, 1066
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Immunodeficiency
Chemotherapy in advanced Kaposi's sarcoma. Implications for current cases in homosexual men, 652
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Immunofluorescence
Tissue distribution of lymphocutes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Immunoglobulins
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Cell lineage in lymphoproliferative disease, 679
Characterization of amyloid deposits and P component from a patient with factor X deficiency reveals proteins derived from a lambda VI light chain, 513
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Indomethacin
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Infarction
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Infection
Acute monoarticular arthritis due to Phialophora parasitica, 519

(*Continued on next page*)

Infection (cont'd.)
Aplastic anemia and non-A, non-B hepatitis, 64
Candidal antigen detection in pulmonary candidiasis, 630
Changing spectrum of pneumonia—news media creation or clinical reality? (E), 1
Clinical and immunologic response to antigen-specific transfer factor in drug-resistant infection with Mycobacterium xenopi, 161
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Enterococcal pneumonia. Occurrence in patients receiving broad-spectrum antibiotic regimens and enteral feeding, 153
Hypercalcemia in disseminated candidiasis, 721
Intracranial tuberculoma: conservative management, 570
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Osteomyelitis caused by Veillonella, 902
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Peritoneal access and related complications in continuous ambulatory peritoneal dialysis, 593
Polymorphonuclear leukocytes: dedicated professional phagocytes, 686
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Prospective randomized double-blind comparison of moxalactam and tobramycin in treatment of urinary tract infections, 694
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Septic shock in a young splenectomized man (CPC), 129
Severe hepatic damage after acetaminophen use in psittacosis, 349
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Treatment of serious infections with moxalactam, 396
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Urinary retention as the presenting symptom of acquired cytomegalovirus infection, 526
Inflammation
Effect of pregnancy on immune complexes and rheumatoid factors in patients with rheumatoid arthritis, 973
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Inheritance
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Inheritance of the mitral valve prolapse syndrome. Discussion of a three-dimensional penetrance model, 967
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Insulin
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Surgical cure of hypoglycemia associated with cystosarcoma phyllodes and elevated nonsuppressible insulin-like protein, 1080
Intubation
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Iron deficiency
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Irradiation
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Retrospective and prospective study of radiation-induced thyroid disease, 852
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Size and erosive features of the sella turcica in acromegaly as predictors of therapeutic response to supervoltage irradiation, 69
Ischemia
Increased damage after ischemic stroke in patients with hyperglycemia with or without established diabetes mellitus, 540
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Isoniazid
Intracranial tuberculoma: conservative management, 570
Joint disease
Acute monoarticular arthritis due to Phialophora parasitica, 519
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Effect of intra-articular orgotein versus a corticosteroid on rheumatoid arthritis of the knees, 124
Effect of pregnancy on immune complexes and rheumatoid factors in patients with rheumatoid arthritis, 973
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Kaposi's sarcoma
Chemotherapy in advanced Kaposi's sarcoma. Implications for current cases in homosexual men, 652
Lactic acid
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Lactic dehydrogenase
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Language
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
Left atrium
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Left ventricle
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465

Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457

Legionella pneumophila
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609

Legionnaires' disease
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609

Leukemia
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Bone involvement in hairy cell leukemia, 228
Cell lineage in lymphoproliferative disease, 679
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934

Leukocytes
Polymorphonuclear leukocytes: dedicated professional phagocytes, 686
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786

Light chains
Characterization of amyloid deposits and P component from a patient with factor X deficiency reveals proteins derived from a lambda VI light chain, 513

Lipopolysaccharides
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980

Liver function
Risk for liver disease in adults with alpha$_1$-antitrypsin deficiency, 221

Lymphadenopathy
Eosinophilia, heart failure, and adenopathy in a black man (CPC), 887

Lymphocytes
Cell lineage in lymphoproliferative disease, 679
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Tissue distribution of lymphocutes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90

Lymphoma
Bleomycin-induced fatal hyperpyrexia, 523
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
Cell lineage in lymphoproliferative disease, 679
Cerebrospinal fluid rhinorrhea as a complication of malignant lymphoma, 1077
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Sequential chemotherapy and late intensification for malignant lymphomas of aggressive histologic type, 382

Lymphoproliferative disease
Cell lineage in lymphoproliferative disease, 679
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700

Macrocytosis
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765

Magnesium hydroxide
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155

Malignancy
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Barrett's esophagus: a review, 313
Bleomycin-induced fatal hyperpyrexia, 523
Bone involvement in hairy cell leukemia, 228
Cell lineage in lymphoproliferative disease, 679
Cerebrospinal fluid rhinorrhea as a complication of malignant lymphoma, 1077
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Compliance with cancer therapy by patients and physicians, 673
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Neurologic deterioration and death in a 27-year-old man with chondrosarcoma (CPC), 663
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Retrospective and prospective study of radiation-induced thyroid disease, 852
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Sequential chemotherapy and late intensification for malignant lymphomas of aggressive histologic type, 382
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Therapy of malignancy-associated hypercalcemia: 1983, 475
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599

Marfan syndrome
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797

McArdle's syndrome
Low muscle levels of pyridoxine in McArdle's syndrome, 217

Mechanical ventilation
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898

Medical education
Impact of inter-physician communication on the effectiveness of medical consultations, 106
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
On first looking into Allbutt's System of Medicine (MSS), 172
Some considerations for implementing collaborative practice (MSS), 9
Technology's consort (E), 353
The chief medical residency in the 1980s (MSS), 737
The diagnostic consultant, 929
The effectiveness of a consultation. Compliance with initial recommendations, 870
The generalist: a jaundiced view, XVI (MSS), 359
The generalist: a jaundiced view, XVII and XVIII (MSS), 532
The generalist: a jaundiced view, XIX (MSS), 731

Medical practice
Compliance with cancer therapy by patients and physicians, 673
Ethical issues in choosing treatment plans (E), 725
Impact of inter-physician communication on the effectiveness of medical consultations, 106

(*Continued on next page*)

Medical practice (cont'd.)
Some considerations for implementing collaborative practice (MSS), 9
Technology's consort (E), 353
The diagnostic consultant, 929
The effectiveness of a consultation. Compliance with initial recommendations, 870
The generalist: a jaundiced view, XVI (MSS), 359
The generalist: a jaundiced view, XVII and XVIII (MSS), 532
The generalist: a jaundiced view, XIX (MSS), 731
Uninformed consent and terms without definitions, 932
Megaloblastic anemia
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
Membranous glomerulopathy
Membranous glomerulopathy associated with captopril therapy, 705
Meningitis
Persistent fever and confusion in a healthy 70-year-old man (CPC), 303
Menstrual cycle
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Mesangiocapillary glomerulonephritis
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175
Metabolic alkalosis
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Metabolism
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Metastasis
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Neurologic deterioration and death in a 27-year-old man with chondrosarcoma (CPC), 663
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Methadone
Failure of mean red cell volume to serve as a biologic marker for alcoholism in narcotic dependence. A randomized control trial, 369
Metoprolol
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Metyrapone
The superiority of the metyrapone test versus the high-dose dexamethasone test in the differential diagnosis of Cushing's syndrome, 657
Microangiopathic anemia
Microangiopathic anemia and disseminated intravascular coagulation in an elderly woman (CPC), 1052
Microangiopathic hemolytic anemia
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
Microbiology
Changing spectrum of pneumonia—news media creation or clinical reality? (E), 1
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Mineral depletion
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Mithramycin
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Therapy of malignancy-associated hypercalcemia: 1983, 475
Mitral valve
Echocardiographic assessment of cardiovascular abnormalities in the Marfan syndrome. Comparison with clinical findings and with roentgenographic estimation of aortic root size, 465
Inheritance of the mitral valve prolapse syndrome. Discussion of a three-dimensional penetrance model, 967
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797
Monoarticular arthritis
Acute monoarticular arthritis due to Phialophora parasitica, 519
Monoclonal antibodies
Cell lineage in lymphoproliferative disease, 679
Tissue distribution of lymphocutes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Mononuclear phagocytes
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Motor function
Stiff-man syndrome and dementia, 1085
Moxalactam
Prospective randomized double-blind comparison of moxalactam and tobramycin in treatment of urinary tract infections, 694
Treatment of serious infections with moxalactam, 396
Multiple endocrine neoplastic syndrome
Prolactinomas as part of the multiple endocrine neoplastic syndrome type 1, 713
Mural thrombosis
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
Muscle metabolism
Low muscle levels of pyridoxine in McArdle's syndrome, 217
Muscle spasm
Stiff-man syndrome and dementia, 1085
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Myasthenia gravis
Recurrence of thymic hyperplasia after thymectomy in myasthenia gravis. Its importance as a cause of failure of surgical treatment, 78
Mycobacterium xenopi
Clinical and immunologic response to antigen-specific transfer factor in drug-resistant infection with Mycobacterium xenopi, 161
Mycosis
Acute monoarticular arthritis due to Phialophora parasitica, 519
Myelosuppression
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Myocardial infarction
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Myocardial metabolism
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Myxedema
Primary hyperparathyroidism masked by hypothyroidism, 144
Narcotic dependence
Failure of mean red cell volume to serve as a biologic marker for alcoholism in narcotic dependence. A randomized control trial, 369
Nasal discharge
Cerebrospinal fluid rhinorrhea as a complication of malignant lymphoma, 1077
Neisseria gonorrhoeae
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925

Nephritis
Reversible "end-stage" lupus nephritis. Analysis of patients able to discontinue dialysis, 361
Nephropathy
Hematuria and red cell casts in typical diabetic nephropathy, 389
IgA-containing circulating immune complexes in patients with IgA nephropathy, 56
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
Nephrotic syndrome
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Neurologic disease
Baroreflex dysfunction in patients with adult-onset diabetes and hypertension, 233
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Increased damage after ischemic stroke in patients with hyperglycemia with or without established diabetes mellitus, 540
Intracranial tuberculoma: conservative management, 570
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Isolated angiitis of the central nervous system. Prospective diagnostic and therapeutic experience, 97
Neurologic deterioration and death in a 27-year-old man with chondrosarcoma (CPC), 663
Persistent fever and confusion in a healthy 70-year-old man (CPC), 303
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Stiff-man syndrome and dementia, 1085
Vasopressin response to orthostatic hypotension, 265
Neutropenia
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Neutrophils
Polymorphonuclear leukocytes: dedicated professional phagocytes, 686
Nitroprusside
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457
Non-Hodgkin's lymphoma
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
Nonhuman primates
Nonhuman primates with spontaneous diseases as animal models (E), 169
Nonspecific vaginitis
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Nonsteroidal anti-inflammatory drugs
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Nonsuppressible insulin-like protein
Surgical cure of hypoglycemia associated with cystosarcoma phyllodes and elevated nonsuppressible insulin-like protein, 1080
Nosocomial disease
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Numbers
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
Nutrition
Enterococcal pneumonia. Occurrence in patients receiving broad-spectrum antibiotic regimens and enteral feeding, 153
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Obesity
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Risk factors for pulmonary embolism. The Framingham study, 1023
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Obstetrics
Some considerations for implementing collaborative practice (MSS), 9
Occupational disease
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Importance of anti-lung antibody in farmer's lung disease, 535
Oligoclonal IgG
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Opportunistic infection
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Orgotein
Effect of intra-articular orgotein versus a corticosteroid on rheumatoid arthritis of the knees, 124
Orthostatic hypotension
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Vasopressin response to orthostatic hypotension. Etiologic and clinical implications, 265
Osteoclast inhibition
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Osteomalacia
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Osteomyelitis
Osteomyelitis caused by Veillonella, 902
Osteoporosis
Bone involvement in hairy cell leukemia, 228
Ovulation
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Pain
Acupuncture treatment of chronic back pain. A double-blind placebo-controlled trial, 49
Palmitate
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Parathyroid disease
Primary hyperparathyroidism masked by hypothyroidism, 144
Prolactinomas as part of the multiple endocrine neoplastic syndrome type 1, 713
Parathyroid hormone
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
P component
Characterization of amyloid deposits and P component from a patient with factor X deficiency reveals proteins derived from a lambda VI light chain, 513
Peer review
The peer review and editorial process: a limited evaluation, 494
Penicillin
Osteomyelitis caused by Veillonella, 902
Perchlorate discharge test
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Peritoneal dialysis
Peritoneal access and related complications in continuous ambulatory peritoneal dialysis, 593
Peritonitis
Peritoneal access and related complications in continuous ambulatory peritoneal dialysis, 593
Pernicious anemia
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765

pH
Extreme central acidosis from Abbott epinephrine, 30
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Phaeohyphomycosis
Acute monoarticular arthritis due to Phialophora parasitica, 519
Phagocytes
Polymorphonuclear leukocytes: dedicated professional phagocytes, 686
Phagocytosis
Endocytosis by the mononuclear phagocyte system and autoimmune disease (CCBSS), 481
Phenotypes
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Phenytoin
Effects of phenytoin on man's immunity. Evaluation of changes in serum immunoglobulins, complement, and antinuclear antibody, 289
Phialophora parasitica
Acute monoarticular arthritis due to Phialophora parasitica, 519
Phlebotomy
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Phosphate, oral
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Therapy of malignancy-associated hypercalcemia: 1983, 475
Phosphorylase
Low muscle levels of pyridoxine in McArdle's syndrome, 217
Pindolol
Intrinsic sympathomimetic activity of pindolol. Evidence for interaction with pretreatment sympathetic tone, 625
Pittsburgh pneumonia agent
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Pituitary disease
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Prolactinomas as part of the multiple endocrine neoplastic syndrome type 1, 713
Size and erosive features of the sella turcica in acromegaly as predictors of therapeutic response to supervoltage irradiation, 69
Plasminogen activator
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Platelets
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Pleural effusions
Mechanism of relief of dyspnea after thoracocentesis in patients with large pleural effusions, 813
Pneumonia
Candidal antigen detection in pulmonary candidiasis, 630
Changing spectrum of pneumonia—news media creation or clinical reality? (E), 1
Enterococcal pneumonia. Occurrence in patients receiving broad-spectrum antibiotic regimens and enteral feeding, 153
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
Pneumonitis
Importance of anti-lung antibody in farmer's lung disease, 535
Poisoning
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Polycythemia
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Polymorphonuclear leukocytes
Polymorphonuclear leukocytes: dedicated professional phagocytes, 686
Portal hypertension
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
Position
Position and diaphoresis in acute asthma, 1005
Positron tomography
Altered regional myocardial metabolism in congestive cardiomyopathy detected by positron tomography, 773
Postinfectious arthritis
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Postpartum hemorrhage
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Potassium
The changing clinical spectrum of primary aldosteronism, 641
Practice of medicine
Compliance with cancer therapy by patients and physicians, 673
Ethical issues in choosing treatment plans (E), 725
Impact of inter-physician communication on the effectiveness of medical consultations, 106
Some considerations for implementing collaborative practice (MSS), 9
Technology's consort (E), 353
The diagnostic consultant, 929
The effectiveness of a consultation. Compliance with initial recommendations, 870
The generalist: a jaundiced view, XVI (MSS), 359
The generalist: a jaundiced view, XVII and XVIII (MSS), 532
The generalist: a jaundiced view, XIX (MSS), 731
Uninformed consent and terms without definitions, 932
Prealbumin
Risk for liver disease in adults with alpha$_1$-antitrypsin deficiency, 221
Prednisone
Isolated angiitis of the central nervous system. Prospective diagnostic and therapeutic experience, 97
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Pregnancy
Effect of pregnancy on immune complexes and rheumatoid factors in patients with rheumatoid arthritis, 973
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Pressor response
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Primary aldosteronism
The changing clinical spectrum of primary aldosteronism, 641
Primary Sjogren's syndrome
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Primates
Nonhuman primates with spontaneous diseases as animal models (E), 169
Progesterone
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Prognosis
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577

Patients surviving 10 years of hemodialysis, 996
Predictors of survival in subjects with chronic airflow limitation, 249
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Prolactin
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Prolactinoma
Prolactinomas as part of the multiple endocrine neoplastic syndrome type 1, 713
Prolapse
Inheritance of the mitral valve prolapse syndrome. Discussion of a three-dimensional penetrance model, 967
Mitral valve dysfunction in the Marfan syndrome. Clinical and echocardiographic study of prevalence and natural history, 797
Prophylaxis
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Propranolol
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Proteins
Characterization of amyloid deposits and P component from a patient with factor X deficiency reveals proteins derived from a lambda VI light chain, 513
Low muscle levels of pyridoxine in McArdle's syndrome, 217
Proteinuria
Hematuria and red cell casts in typical diabetic nephropathy, 389
Membranous glomerulopathy associated with captopril therapy, 705
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Pseudohypoparathyroidism
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
Pseudomonas aeruginosa
Clinical significance of serum antibody responses to exotoxin A and type-specific lipopolysaccharides in patients with Pseudomonas aeruginosa infections, 980
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Psittacosis
Severe hepatic damage after acetaminophen use in psittacosis, 349
Public health
Regulation of alcohol consumption. Individual appetite and social policy (CCBSS), 322
Pulmonary disease
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Candidal antigen detection in pulmonary candidiasis, 630
Changing spectrum of pneumonia—news media creation or clinical reality? (E), 1
Clinical and immunologic response to antigen-specific transfer factor in drug-resistant infection with Mycobacterium xenopi, 161
Enterococcal pneumonia. Occurrence in patients receiving broad-spectrum antibiotic regimens and enteral feeding, 153
Glucocorticoids in acute asthma. A critical controlled trial, 845
Importance of anti-lung antibody in farmer's lung disease, 535
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Mechanism of relief of dyspnea after thoracocentesis in patients with large pleural effusions, 813
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Portal and pulmonary hypertension with microangiopathic hemolytic anemia, 1093
Position and diaphoresis in acute asthma, 1005
Predictors of survival in subjects with chronic airflow limitation, 249
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Risk factors for pulmonary embolism. The Framingham study, 1023
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Simultaneous infection with Legionella pneumophila and Pittsburgh pneumonia agent. Clinical features and epidemiologic implications, 609
The role of antithrombin III in clinical management of pulmonary embolization (E), 529
Pulmonary vasculitis
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Purified insulin
Severe delayed inflammatory reactions from injected insulin. Association with cell-mediated immunity, 909
Purpura
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Pyridoxine
Low muscle levels of pyridoxine in McArdle's syndrome, 217
Pyrogenic reaction
Bleomycin-induced fatal hyperpyrexia, 523
Outbreak of pyrogenic reactions at a dialysis center. Association with infusion of heparinized saline solution, 449
Radiation cardiomyopathy
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Radiotherapy
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Detection of radiation cardiomyopathy by gated radionuclide angiography, 297
Retrospective and prospective study of radiation-induced thyroid disease, 852
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Size and erosive features of the sella turcica in acromegaly as predictors of therapeutic response to supervoltage irradiation, 69
Red blood cells
Failure of mean red cell volume to serve as a biologic marker for alcoholism in narcotic dependence. A randomized control trial, 369
Reflux
Barrett's esophagus: a review, 313
Renal disease
Hematuria and red cell casts in typical diabetic nephropathy, 389
Hospital-acquired renal insufficiency: a prospective study, 243
Idiopathic mesangiocapillary glomerulonephritis. Comparison of types I and II in children and adults and long-term prognosis, 175
IgA-containing circulating immune complexes in patients with IgA nephropathy, 56
Membranous glomerulopathy associated with captopril therapy, 705
Metabolic alkalosis due to absorption of "nonabsorbable" antacids, 155
Monitoring glomerular function in diabetic nephropathy. A prospective study, 256
Nephrotic syndrome and immune complex glomerulonephritis associated with chlorpropamide therapy, 337
Patients surviving 10 years of hemodialysis, 996

(*Continued on next page*)

Renal disease (cont'd.)
Peritoneal access and related complications in continuous ambulatory peritoneal dialysis, 593
Preliminary trials with 24,25-dihydroxy-vitamin D_3 in dialysis osteomalacia, 407
Presence of circulating macromolecular IgA in patients with hematuria due to primary IgA nephropathy, 375
Reversible "end-stage" lupus nephritis. Analysis of patients able to discontinue dialysis, 361
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
Renin
Aging and aldosterone, 442
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029
Renin-angiotensin system
Comparison of propranolol or hydrochlorothiazide alone for treatment of hypertension. III. Evaluation of the renin-angiotensin system, 1029
Research
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Nonhuman primates with spontaneous diseases as animal models (E), 169
The chief medical residency in the 1980s (MSS), 737
Residency
The chief medical residency in the 1980s (MSS), 737
Resistance
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Resistance to multiple hormones in patients with pseudohypoparathyroidism. Association with deficient activity of guanine nucleotide regulatory protein, 545
Treatment of serious infections with moxalactam, 396
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Respiratory failure
Angiosarcoma of the lung with fatal pulmonary hemorrhage, 1072
Rhabdomyolysis
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Rheumatic heart valves
Tissue distribution of lymphocutes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Rheumatoid arthritis
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Effect of intra-articular orgotein versus a corticosteroid on rheumatoid arthritis of the knees, 124
Effect of pregnancy on immune complexes and rheumatoid factors in patients with rheumatoid arthritis, 973
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Therapeutic trial of cryofiltration in patients with rheumatoid arthritis, 951
Rhinorrhea
Cerebrospinal fluid rhinorrhea as a complication of malignant lymphoma, 1077
Rifampicin
Intracranial tuberculoma: conservative management, 570
Risk factors
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Risk factors for pulmonary embolism. The Framingham study, 1023
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Risk for liver disease in adults with alpha$_1$-antitrypsin deficiency, 221
Samaritanism
Technology's consort (E), 353
Sarcoidosis
Serial changes in markers of disease activity with corticosteroid treatment in sarcoidosis, 747
Scintiscanning
Retrospective and prospective study of radiation-induced thyroid disease, 852
Seizures
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Sella turcica
Primary empty sella, hyperprolactinemia, and isolated ACTH deficiency after postpartum hemorrhage, 905
Size and erosive features of the sella turcica in acromegaly as predictors of therapeutic response to supervoltage irradiation, 69
Septic shock
Septic shock in a young splenectomized man (CPC), 129
Sequential chemotherapy
Sequential chemotherapy and late intensification for malignant lymphomas of aggressive histologic type, 382
Sex hormones
Association of hyperestrogenemia and coronary heart disease in men in the Framingham cohort, 863
Relation of menstrual cycle phase to symptoms of rheumatoid arthritis, 957
Sexually transmitted disease
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Shock
Septic shock in a young splenectomized man (CPC), 129
Sicca complex
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Sickle cell anemia
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Side effects
Beta-adrenergic blockade and the gastrointestinal system, 1042
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Sinus disease
Cerebrospinal fluid rhinorrhea as a complication of malignant lymphoma, 1077
Sjogren's syndrome
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Skeletal disease
Acupuncture treatment of chronic back pain. A double-blind placebo-controlled trial, 49
Bone involvement in hairy cell leukemia, 228
Comparative study of available medical therapy for hypercalcemia of malignancy, 421
Effects of dichloromethylene diphosphonate in women with breast carcinoma metastatic to the skeleton, 401
Osteomyelitis caused by Veillonella, 902
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Therapy of malignancy-associated hypercalcemia: 1983, 475
Skin disease
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Small cell lung cancer
Management of hematologic and infectious complications of intensive induction therapy for small cell carcinoma of the lung, 741
Role of prophylactic cranial irradiation in prevention of central nervous system metastases in small cell lung cancer. Potential benefit restricted to patients with complete response, 615
Smoking
Predictors of survival in subjects with chronic airflow limitation, 249
Relation between variations in the phenotypic expression of an unstable hemoglobin disorder (hemoglobin Zurich) and carboxyhemoglobin levels, 23
Sodium
Aging and aldosterone, 442
Cardiac failure in Addison's disease, 829
Sodium aurothiomalate
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
Specialization
The chief medical residency in the 1980s (MSS), 737
The diagnostic consultant, 929
The generalist: a jaundiced view, XVI (MSS), 359

The generalist: a jaundiced view, XVII and XVIII (MSS), 532
The generalist: a jaundiced view, XIX (MSS), 731
Splenectomy
Septic shock in a young splenectomized man (CPC), 129
Statistics
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
Status asthmaticus
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Stiff-man syndrome
Stiff-man syndrome and dementia, 1085
Streptococcal antigens
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Streptokinase
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Stricture
Barrett's esophagus: a review, 313
Stroke
Increased damage after ischemic stroke in patients with hyperglycemia with or without established diabetes mellitus, 540
Strychnine
Strychnine poisoning. Recovery from profound lactic acidosis, hyperthermia, and rhabdomyolysis, 507
Sudden death
Sudden unexpected death during ambulatory electrocardiographic monitoring. The Framingham study, 148
Surgical complications
Hospital-acquired renal insufficiency: a prospective study, 243
Surgical success
Recurrence of thymic hyperplasia after thymectomy in myasthenia gravis. Its importance as a cause of failure of surgical treatment, 78
Surgical cure of hypoglycemia associated with cystosarcoma phyllodes and elevated nonsuppressible insulin-like protein, 1080
Survival
Patients surviving 10 years of hemodialysis, 996
Predictors of survival in subjects with chronic airflow limitation, 249
Prognostic factors in advanced colorectal carcinoma. Importance of lactic dehydrogenase level, performance status, and white blood cell count, 786
Retrospective and prospective study of radiation-induced thyroid disease, 852
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Swimming pools
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Sympathetic function
Clonidine raises blood pressure in severe idiopathic orthostatic hypotension, 193
Intrinsic sympathomimetic activity of pindolol. Evidence for interaction with pretreatment sympathetic tone, 625
Synovitis
"Postinfectious" arthritis. New look at an old concept with particular attention to disseminated gonococcal infection (E), 925
Systemic lupus erythematosus
Antibodies to native DNA and serum complement (C3) levels. Application to diagnosis and classification of systemic lupus erythematosus, 206
Clinical significance of anti-Sm antibodies in systemic lupus erythematosus, 201
Intrathecal IgG synthesis and blood-brain barrier impairment in patients with systemic lupus erythematosus and central nervous system dysfunction, 837
Reversible "end-stage" lupus nephritis. Analysis of patients able to discontinue dialysis, 361
Triad of glomerulonephritis, antinuclear antibodies, and positive skin immunofluorescence. Variant of systemic lupus erythematosus, 83
T cell lymphoblastic lymphoma
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
T cells
Cell lineage in lymphoproliferative disease, 679
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Tissue distribution of lymphocytes in rheumatic heart valves as defined by monoclonal anti-T cell antibodies, 90
Technology
Technology's consort (E), 353
Theophylline
Use of hemoperfusion for treatment of theophylline intoxication, 961
Thoracocentesis
Mechanism of relief of dyspnea after thoracocentesis in patients with large pleural effusions, 813
Thrombocytopenia
Anemia and thrombocytopenia in a 63-year-old man (CPC), 502
Thrombosis
Changing concepts of pathophysiology, prognosis, and therapy in acute myocardial infarction, 877
Mural thrombi in myocardial infarctions. Prospective evaluation by two-dimensional echocardiography, 989
The role of antithrombin III in clinical management of pulmonary embolization (E), 529
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Thymectomy
Recurrence of thymic hyperplasia after thymectomy in myasthenia gravis. Its importance as a cause of failure of surgical treatment, 78
Thymus
Recurrence of thymic hyperplasia after thymectomy in myasthenia gravis. Its importance as a cause of failure of surgical treatment, 78
Thyroid antibodies
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Thyroid disease
Correlation of thyroid antibodies and cytologic features in suspected autoimmune thyroid disease, 941
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Primary hyperparathyroidism masked by hypothyroidism, 144
Primary Sjogren's syndrome and autoimmune hemolytic anemia in sisters. A family study, 1066
Retrospective and prospective study of radiation-induced thyroid disease, 852
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Thyroid hormones
Elevated thyroxine levels due to increased thyroxine-binding globulin in acute hepatitis, 564
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Primary hyperparathyroidism masked by hypothyroidism, 144
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Thyronine
Primary hyperparathyroidism masked by hypothyroidism, 144
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Thyrotropin
Hyperthyroidism and acromegaly due to a thyrotropin- and growth hormone-secreting pituitary tumor. Lack of hormonal response to bromocriptine, 915
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Risk factors for thyroid abnormalities after neck irradiation for childhood cancer, 272
Thyroxine
Elevated thyroxine levels due to increased thyroxine-binding globulin in acute hepatitis, 564
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010

Tilt testing
Vasopressin response to orthostatic hypotension. Etiologic and clinical implications, 265
Timolol
Role of beta-adrenergic blockade in the therapy of patients with myocardial infarction, 113
Tobramycin
Prospective randomized double-blind comparison of moxalactam and tobramycin in treatment of urinary tract infections, 694
Total parenteral nutrition
The effect of total parenteral nutrition on chemotherapy-induced myelosuppression. A randomized study, 40
Toxicity
Association of IgE antibodies to sodium aurothiomalate and adverse reactions to chrysotherapy for rheumatoid arthritis, 945
From experiment to experience: side effects of nonsteroidal anti-inflammatory drugs, 820
Pulmonary complications associated with combination chemotherapy programs containing bleomycin, 557
Use of hemoperfusion for treatment of theophylline intoxication, 961
Transaminases
Severe hepatic damage after acetaminophen use in psittacosis, 349
Transfer factor
Clinical and immunologic response to antigen-specific transfer factor in drug-resistant infection with Mycobacterium xenopi, 161
Transfusion
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Transplantation
Bone marrow transplantation for non-Hodgkin's lymphoma in children and young adults. A pilot study, 497
Nosocomial Legionnaires' disease. Occurrence in recipients of bone marrow transplants, 281
Triiodothyronine
Elevated thyroxine levels due to increased thyroxine-binding globulin in acute hepatitis, 564
Hypothyroidism associated with positive results of the perchlorate discharge test in elderly patients, 1010
Trimethoprim/sulfamethoxazole
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
Trimethoprim/sulfamethoxazole prophylaxis in neutropenic patients. Reduction of infections and effect on bacterial and fungal flora, 599
Tuberculoma
Intracranial tuberculoma: conservative management, 570
Tuberculosis
Clinical and immunologic response to antigen-specific transfer factor in drug-resistant infection with Mycobacterium xenopi, 161
Intracranial tuberculoma: conservative management, 570
Turcot's syndrome
Acute leukemia after radiotherapy in a patient with Turcot's syndrome. Impaired colony formation in skin fibroblast cultures after irradiation, 343
Ulcer
Barrett's esophagus: a review, 313
Urinary disease
Prospective randomized double-blind comparison of moxalactam and tobramycin in treatment of urinary tract infections, 694
Urinary retention
Urinary retention as the presenting symptom of acquired cytomegalovirus infection, 526
Vaginitis
Nonspecific vaginitis. Diagnostic criteria and microbial and epidemiologic associations, 14
Vasculitis
Clinical significance of anti-Sm antibodies in systemic lupus erythematosus, 201
Isolated angiitis of the central nervous system. Prospective diagnostic and therapeutic experience, 97
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Vasodilators
"Optimal" left ventricular filling pressure during nitroprusside infusion for congestive heart failure, 457
Vasopressin
Vasopressin response to orthostatic hypotension. Etiologic and clinical implications, 265
Veillonella
Osteomyelitis caused by Veillonella, 902
Venous thrombosis
Venous thrombosis in a family with defective release of vascular plasminogen activator and elevated plasma factor VII/von Willebrand's factor, 33
Ventilation
Combined ventilator and bicarbonate strategy in the management of status asthmaticus, 898
Improved exercise tolerance of the polycythemic lung patient following phlebotomy, 415
Mechanism of relief of dyspnea after thoracocentesis in patients with large pleural effusions, 813
Position and diaphoresis in acute asthma, 1005
Ventriculography
Left ventricular functional alterations at rest and during submaximal exercise in patients with recent myocardial infarction, 577
Verbal communication
Numbers are better than words. Verbal specifications of frequency have no place in medicine, 1061
Viral infection
Aplastic anemia and non-A, non-B hepatitis, 64
Community-acquired opportunistic infections and defective cellular immunity in heterosexual drug abusers and homosexual men, 433
Urinary retention as the presenting symptom of acquired cytomegalovirus infection, 526
Viscosity
Effects of blood transfusion on exercise capacity in patients with sickle cell anemia, 757
Vitamin B_{12}
Relapses after interruption of cyanocobalamin therapy in patients with pernicious anemia, 765
Vitamin D
Hypercalcemia in disseminated candidiasis, 721
Preliminary trials with 24,25-dihydroxyvitamin D_3 in dialysis osteomalacia, 407
Wegener's granulomatosis
Pulmonary vasculitis (Wegener's granulomatosis). Immunohistochemical study of T and B cell markers, 700
Weight
Disparate cardiovascular effects of obesity and arterial hypertension, 808
Risk factors for pulmonary embolism. The Framingham study, 1023
Vigorous supplementation of a hypocaloric diet prevents cardiac arrhythmias and mineral depletion, 1016
Whirlpools
Pseudomonas aeruginosa serotype 0:9. New cause of whirlpool-associated dermatitis, 73
Yeast infection
Double-blind randomized study of prophylactic trimethoprim/sulfamethoxazole in granulocytopenic patients with hematologic malignancies, 934
